To All Concerned,

The Copper Flats Mining project will do wonders for Sierra County!! Sierra County has not witnessed large job growth for many years. What we lack in industry we make up in tourism and we all know tourism can only go so far. THEMAC is a chance for change in Sierra County! This will allow for good paying jobs for the community, in turn this will boost local business and increase home sales and additional business and industry to seek permanent homes in Sierra County.

We can all do our parts when it comes to making Sierra County as a place other families want to raise children and grow roots. THEMAC will be a change for the future of Sierra County. This my friends will bring a much needed life line to the community!!
